Blanchard students learn about banking careers

Blanchard students spin the First National Bank prize wheel at the Blanchard High School College and Career Fair on March 13.

More than 900 Blanchard students visited the fair which housed more than 22 booths, offering future careers and colleges such as USAO, OU, OSU, Pioneer Library, branches of the military and FNBT.

Lender Kailey Smith and Digital Marketing Specialist Katey Chambers represented the bank's booth by handing out goody-bags filled with the FNBT's 2018 photo contest calendar along with pamphlets on careers in banking and gifts from the prize wheel.

"Most students did not know that a bank has more job positions than just being a teller and handling money," Smith said. "I enjoyed speaking with them about the different roles within the bank, as well as some of the accounts we offer."
