Changing Lives One Step at a Time

The Mustang Chamber of Commerce rewards community members who strive to achieving healthy living. On March 24, the winners of the Mustang Makeover Challenge were announced during the Chamber luncheon.

This Mustang Makeover Challenge is a community health and weight loss program that the Mustang Chamber of Commerce created. The goal is to improve employee health, reduce employee absenteeism, reduce health insurance rates, and to give businesses a tax break for having a wellness program.

The First National Bank & Trust Co. contributed to this event by sponsoring Bob Alexander, manager of The Links Golf Course, that participated in the weight loss challenge.

Bob Alexander thanked bank officials for their support.

“I love that we had the opportunity to be the sponsor for the grand prize,” Said Bank Manager Patty Chan. “I also love that Shannon McCulloch with Heavenly Hands and Renee Peerman with the Mustang Chamber of Commerce are trying to promote a healthier lifestyle for our community. I believe that with each year the interest will grow more and more. It is a wonderful, educational event.”

This is the second year that the community has had the Mustang Makeover Challenge competition and the Chamber will continue to push the community to stay fit.

Bank Manager Patty Chan and Senior Vice President David Hurst present Bob Alexander with a check for the weight loss program. Bob lost over 35lbs. in the Mustang Makeover Challenge.
