New Team Spirit Cards available now

Ten new card designs are available in First National Bank's *Team Spirit Card* program, bank officials have announced. Benefitting 19 area schools, the program pays more than \$50,000 per year in dividends to school projects.

"This is an exciting upgrade," said Mike Van Sickle, SVP for operations and retail. "Thousands of our customers carry the card that promotes their favorite school, so this is a fun announcement that encourages school spirit, even as it supports school projects with cash. We enjoy playing a vital role in community life across our service area."

More new card designs are coming later this spring, said Randy Talley, SVP for communications at First National Bank & Trust Co.

"From the Newcastle Racers to the USAO Drovers and Cement Bulldogs, people love their favorite teams," Talley said. "These new designs were conceived by our own Kenny Tolman, working with school officials in each of these communities. We are delighted to host a program that does so much good."

The *Team Spirit Card* program was developed in 2006 by FNBT. To date, more \$450,000 has been transmitted to area schools across central and southwest Oklahoma.
